

# Wireless Access at Sachse Public Library

## **I. WIRELESS SECURITY.**

- A. The Library's wireless Internet connection is an unsecured open network. The Library cannot guarantee the safety of your computer when using this network.
- B. The Library assumes no responsibility for your laptop or wireless device. Information sent to or from your device can be intercepted by anyone with the proper equipment, and within range of the Library's wireless network.

## **II. WIRELESS TECHNICAL SUPPORT.**

- A. The Library is unable to provide technical assistance regarding wireless access, and there is no guarantee that you will be able to connect. If you need assistance, contact the manufacturer of your wireless device or software.
- B. The Library is not responsible for any changes you make to your computer's settings, and recommends that you copy or make a note of any settings before you change them.

## **III. USING WIRELESS IN THE LIBRARY.**

- A. The wireless access user must be 18 years of age or older or must have parental consent. Patron must have a Sachse Public Library card and agree to the Library's Internet Policy.
- B. Sachse Public Library uses the WiFi standard (also known as IEEE 802.11b).
- C. You will need to bring your own wireless equipment to the Library, and it will need to have built-in WiFi or you will need to install your own WiFi network card. The Library does not have wireless devices available for public use.
- D. Most WiFi equipment is compatible. However, the Library makes no guarantees as to compatibility of your hardware with the Library's network.
- E. Printers are not connected to the Library's wireless network. If you wish to print, save your work to a portable drive, then log in to a public PC.

Approved by the Library Board 12/19/2006
